## ENDORSEMENTS

“Can you please convey our heartfelt thanks; it really was after the ceremony the highlight of our celebrations, best wishes from us both - **Christine Gee (best-selling author Bryce Courtenay & Christine Gee, October 2011)**

*Evelyn and Joseph were amazing. Not only did they conduct themselves with a level of professionalism, which can only be admired, but they are of course also incredibly talented. I can honestly say that I enjoyed their renditions of the songs that I requested more than the original versions and Evelyns initiative to add French songs once she realized a number of the our guests were French was a beautiful touch.*

*We feel privileged to have had them perform on our special day and could have sat and listened to them for hours.*

*I will be singing the praises of Evelyn and Joseph for many years to come.*

*Yours truly, **Leanissa Fenery**    [...see more](#)*
